SOULVATION The Best of Northern Soul:

Those wacky Northern Soul kids, if it wasn't for them, a lot of soul stars would have been footnotes a long time ago, but Chalkie and his pals love mixing it up with great soul singers that had short stays at the top of the charts. Crammed with 20 floor filling soul out performances, it goes from blue eyes to a whole lot of the real end of the scale. The kind of stuff you could once regularly expect from Rhino, the deep collector has a new best friend.
