"Freemasonry And The Knights Templar: Legacy Of Secrecy" DVD

This is a case of gross misrepresentation with the packaging and description, as this isn't the comprehensive and well-researched documentary it seems. What you get is 3 hours of a British talk show chat on the subject...basically 3 guests over three programs, espousing opinions (qualified or not isn't for me to say). It's a fair to poor transfer, at that, with no graphics nor documentation. It's dry, uninteresting, and most certainly a disappointment. Anyone looking at researching the history of the Freemasons and the Knights Templar should certainly look elsewhere. This one is a rip-off, pure and simple.
