I am a huge X Files fan! I love the show! And when I received "UFO Encounters: The Real X Files" from Music Video Distributors. I popped this DVD in the drive first thing! Sadly this is nothing like The X Files series!

This 3 hour program is about Nick Pope who worked for the British Ministry of Defense as the man in charge of researching UFO cases for many years. Many people call him the "real" Fox Mulder. This is not a movie of his career this is not even a documentary per say, this is more or less three hours of Nick Pope talking about things that happened in his career!

While there is some interesting videos and special effects, and Pope himself gives his expert advice on catching UFO's on camera, unless you are a UFO fanatic and you have to watch everything UFO related this is not for you, but if you are by all means head over to [www.mvdb2b.com](http://www.mvdb2b.com) and pick up a copy.
