Best Of Bob Dylan's Theme Time Radio Hour Vol 2

Second volume of songs from Bob Dylan's eclectic radio show.

Following the huge success of the first collection of tracks taken from Bob Dylan's Theme Time Radio Shows, his weekly on air stint during which he plays the songs that have remained closest to his heart over the years, here is volume two. Offering a further selection from the initial series, this latest 2 CD set features one further track from every show Dylan presented in the first series, as aired on the XFM radio station, between May 2006 and May 2007. Once again a hugely eclectic choice of songs, many of which Bob first heard on the radio as a teenager in Minnesota, are included, and every effort has been made to track down the exact recordings Dylan played, many of which are today valuable rarities, previously unavailable for many years. With extensive notes provided by Isis Magazine's Derek Barker, this second selection will prove just as enticing to fans of both Dylan and of American roots music.
