**8th Grade Films Presents- a film by Jim Heneghan.** *Goodnight Cleveland* is a fly on the wall documentary following the Hellcopters on their 2002 tour of America.

Informed by the techniques of cinema verité and direct cinema developed in the 1960's by master documentary filmmakers such as the Maysle brothers, the band is allowed the space to do what they do without intrusions of any kind from the filmmaker. This allows for glimpses into the magical and mundane moments of everyday life in a hard working action rock band abroad.

**The Hellcopters:** *Goodnight Cleveland* is a relaxed and open-handed portrait of a band on the road. Essential viewing for anyone pondering a career in the music business, or anyone merely curious.
