Since exploding onto the scene The Strokes have given rock music the strangling it so badly needed. Not only have they won the hearts and minds of the music press and alternative crowd but they have also crossed over into the mainstream without sacrificing any of their credibility.

In just three years, The Strokes have gone from low-key New York club band to internationally famous major league players.

The Strokes' "New York Stories" now tells the complete and unauthorized story behind the band for the first time.

- *The first behind the scenes DVD on this incredible band is available now.*
- *Featuring interviews with close friends and colleagues of the band.*
- *Rare band footage - Never previously seen.*
- *Unbelievable revelations.*

The Strokes are playing dates all over the USA on their current 'Room On Fire' sell out tour.
