In 2004 Muse toured extensively across the world, they featured heavily on the summer festival circuit, and a short North American tour in the spring coincided with an appearance at Coachella Music Festival. This year they will join the Killers and Interpol at Coachella 2005 to support their recent US release 'Absolution'. Muse have been highly touted in the British press over the past year and the buzz in the US is officially on. They are sure to join the likes of Radiohead and Coldplay and take America by storm. Now for the first time this DVD charts their successful career to date, and details the events that has made them one of today's most intriguing rock bands.
