"The first unauthorised DVD biography of Foo Fighters.

Attempting to pick up where Nirvana left off, Dave Grohl and his ever-changing line up of Foo Fighters were doomed to failure upon the release of their debut in 1995. It is therefore with respect due, that 10 years on the band are ready to release their fifth album, and the signs are that it could be their best yet. With four classics under their belt and their popularity always heading upwards with each new release, this could well be the Foos finest summer to date! With numerous festival appearances scheduled and a US tour to follow, the time couldn't be better for fans to go behind the scenes and get the full low down on this extraordinary band. They can do just that with Foo Fighters: Guardian Angels, the first ever Foo Fighters documentary DVD. Going right back to Grohl's pre Nirvana punk roots, with previously unseen concert footage from that time and coming right up to date with the recording sessions for 'In Your Honor' this is one film that no Foos fan will want to be without.

SPECIAL FEATURES:

- ▶ Previously unseen film footage of the band.
- ▶ Exclusive in-depth interviews including; Punk biographer Mark Anderson, Foo Fighters biographer Martin James, Nirvana biographer Charles Cross, Nirvana producer Jack Endino, Studio owner Robert Land, Rhythm Magazine journalist Jordan McLachlan, Grunge historian Peter Bletcha, Virgin Radio DJ Ben Jones, and many others.
- ▶ Additional rare and previously unseen footage of Grohl's pre Nirvana bands included in the programme.
- ▶ Foo Fighters digital trivia quiz and extensive Foos discography.
