**Jim Lauderdale** is a pioneer and a key figure in the Americana movement. Although you won't find his name at the top of the charts, he has still had an enormous influence as a stylist and songwriter on many more famous members of the scene. Not only that, he is a respected performer and entertainer in his own right.

**Jim Lauderdale** himself remains a modest character. He doggedly continues to push back the boundaries of country music while at the same time respecting its roots. He once described what inspires his work in an interview with **Artist Direct**: "Country music is timeless, and it transcends musical boundaries in a way. Its memorable moments. Its emotions, realizations ... the things that tie everybody together. But country has a definite sound: lonesome, life-affirming, strong, on the brink, tragic, beautiful and hopeful - often all at once."

**Track List:** *This Is The Big Time, I'm On Your Side, Life By Numbers, And That's A Lot, Why Do I Love You, Divide And Conquer, Take Me Down A Path My Heart Won't Know, She Used To Say That To Me, Hole In My Head, Three Way Conversation, Grace's Song, The King of Broken Hearts, Sometimes, Half Way Down, Mojo Workin'*
