## OCEAN OF BLISS

**Brainwave Entrainment Music (432 Hz)**

• for Relaxation, Healing and Immune System Support •

Steven Halpern's healing music duets with Mother Earth's soothing surf to provide a *timely* and *effective* soundtrack for sanity. *OCEAN OF BLISS* can also support their immune system *at the speed of sound*.

The rhythm of the waves (*Organic Brainwave Entrainment*) is amplified by sonic entrainment tones to *entrain the brain* and *soothe the soul*.

From the first notes, listeners shift from *stressed* to *blessed!*

Steven's internationally acclaimed music guides listeners to the primordial deep *alpha* 8 Hz brainwave frequency (known as the Schumann Resonance.)

Each track features Steven's healing Rhodes electric piano, joined at times by harp, crystal bowls, and bamboo flute.
