Like a tuning fork for the brain,<sup>™</sup> Halpern's healing music creates an Auditory Contact High (ADH) that nurtures and uplifts body, mind and spirit.

# STEVEN HALPERN

## CANNABIS DREAMS

### Music for Relaxation, Healing and Well-Being

Steven Halpern is the acknowledged pioneer in composing music that supports relaxation, healing, meditation and spiritual well-being. His music is well-documented to help patients manage stress, pain and sleep deficiency.

**CANNABIS DREAMS** showcases Halpern's more ethereal, ambient and hypnotic compositions, with each track 'inspired' by a particular strain. Two tracks\* feature the angelic vocals of rising star **Kristin Hoffmann** (think Joni Mitchell meets Enya).

Two additional tracks were recorded on 11.11.20 after experiencing the meditative and uplifting effects of the recently developed premium strain, **Mirayo®** by Santana.
