

"...MIDNIGHT LEGACY LOOKS READY TO STEP UP TO THE PLATE..."

-TheDigitalBits.com

Uncut, English language, 1.85 widescreen release of the 1980 Italian Horror/Sci-Fi film directed by *Ciro Ippolito* (*Sam Cromwell*).

Starring *Belinda Mayne*, *Mark Bodin*, *Roberto Barrese*, *Benny Aldrich*, *Michele Soavi* and *Judy Perrin*.

A group of cave explorers are confronted in an underground cavern by a mysterious living rock. Little do they know that it bears home to deadly, flesh-eating creatures, intent on wiping out the entire human population. Can they survive and ultimately prevent Earth's total annihilation?

Never released in the United States, only a handful of countries saw a cropped and edited VHS release nearly thirty years ago, that is until now.

For our inaugural release, Midnight Legacy is proud to present the first-ever widescreen release of *Alien 2 On Earth*. The definitive version, transferred from the original 35mm negative, which runs longer than any other version seen throughout the world. The presentation that finally represents the intended vision of *Alien 2 On Earth*.

BOTH BLU-RAY™ & DVD IN A COLLECTOR'S SLIPCASE

Every Legacy release is properly restored, ensuring each title is definitive and presented in the highest possible quality. Fully uncut and transferred from original vault materials, we insist on maintaining proper aspect ratios and original audio mixes. Respecting the original intentions of the filmmakers; preserving the legacy these films have created.
