# EMERSON LAKE & PALMER

... Welcome back my friends  
40th Anniversary Reunion Concert  
High Voltage Festival - 25th July

## 2010

**EMERSON, LAKE & PALMER**, also known as **ELP**, are an English progressive rock super group. They found success in the 1970s and sold over forty million albums and headlined large stadium concerts – one of the largest at California Jam (Cal Jam) in 1974 was in front of 200,000 people. The band consists of Keith Emerson (keyboards), Greg Lake (bass guitar, vocals, guitar) and Carl Palmer (drums, percussion). They are one of the most commercially successful progressive rock bands and from the outset focused on combining classical pieces with rock music.

The legendary Rock Band reunited to celebrate their 40th Anniversary and headlined London's first High Voltage Rock Festival. This was the historic moment when Emerson Lake and Palmer performed for the first time since 1998.

This spectacular performance with extravagant special effects and lighting recaptured the magic and musical genius of Keith Emerson, Greg Lake and Carl Palmer as they performed their greatest hits in front of thousands of fans and leaving a lasting memory of the stunning musicianship of these three legendary performers.

**AVAILABLE ON DVD & BLU-RAY**

Like the armour-plated tank/armadillo hybrid that graced their album, Tarkus, ELP... bestrode the earth, destroying all in their wake. To young ears it probably now seems impossible that three mere mortals could have wielded such power, but this was the early 70s.

—Chris Jones, *BBC*
