

JOE LOUIS WALKER

Live in **ISTANBUL**

**The legendary, boundary-pushing icon,
Joe Louis Walker, live in Istanbul in 1995.**

"I remember this gig vividly because it was my first time visiting and performing in Turkey. We had no idea what to expect. But we were very surprised to find the audience very supportive and knowledgeable. Musicians are always asked 'What kind of audience was it?' My answer is usually 'There's mostly two kinds: the kind of which the music hits them in the head, or the kind where the music hits them in the heart.' I can honestly say, of the audience that night, the music hit them in both."
