Bernie Worrell Stranger: Bernie Worrell On Earth

This documentary, featuring interviews with some of the most notable names in modern music (Byrne, Clinton, etc), captures the life and sounds of **Bernie Worrell**: the overlooked and eccentric musical mastermind who has been compared to Beethoven, Charlie Parker, and Jimi Hendrix. Since writing a piano concerto at age 8, Worrell has been acknowledged as a musical genius. He joined the **Washington Symphony Orchestra** at 10, then later joined **Parliament Funkadelic** and changed music forever. Through his work with Talking Heads, Keith Richards, Warren Haynes and Mos Def, **Worrell shaped the electronic sound of the last four decades**. This DVD delves deep into the man behind the music.
