Retail	\$13.95
Genre	Psychedelic Rock
Run Time	53 minutes
Box Lot	30
Label	PROPHASE
Format	CD

Kawabata Makoto & Mothers of Invasion Hot Rattlesnakes

Hot Rattlesnakes is a reissue of a classic out of print Acid Mothers Temple-related CD. Pressed in a limited quantity in the UK, it sold out almost immediately and currently commands high prices on ebay and is whispered about in hushed tones from those who have actually heard it. Guitarist Kawabata Makoto brings along Acid Mothers Temple cohorts Tsuyama Atsushi (Zoffy, Omoide Hatoba) and Ichiraku

Yoshimitsu for one of the most out there power trio recordings ever. Long improvised tracks of acid rock meets prog rock meets experimental and free jazz combine with a suitably spacey recording to form a righteous wash of sound. While certainly close to Acid Mothers Temple in sound and feeling, Hot Rattlesnakes certainly exists in its own little corner of the Acid Mothers Temple galaxy.

"If you're planning to give Ibiza a miss this summer and take a trip to the far reaches of the known galaxy instead, this is a must for your Walkman (iPod?)."

—Peter Marsh *BBC Experimental Review*

"This is acid music. This is music as acid. This is acid as music. This is music."

—Thom Jurek, *All Music Guide*

Track Listing

1. Theme Of Hot Rattlesnakes
2. Fripan Flipped Over Niffy Their King Of Frrippery
3. French Sweet Sugar House

Band Members

- Kawabata Makoto: all guitars
- Tsuyama Atsushi: bass
