

U2 - Rebirth Of Cool: U2 In The Third Millennium

Documentary featuring rare and classic footage, interviews with all the band members, plus rare photos.

DESCRIPTION

This film tells the story of the massive regeneration of U2 during the new millennium. Across two stunning and classic albums, a world tour to accompany each, numerous side projects and a fresh attitude that not only drew the old fans back in droves, but equally attracted huge swathes of new devotees, the 'noughties' was just as much U2's decade as the eighties had been. Featuring rare and classic footage of U2, interviews with all the band members and with their closest colleagues, friends, producers etc., contributions and review from the finest writers and music journalists [Johnny Rogan, Matt Snow, Gavin Martin and many others], news footage and location shoots and a host of other features, this DVD uniquely shows how a band can, using intelligence, soul and plenty of classic song writing, revive not just a career but a whole way of life.
