

SOCIAL SCREAM - Initiation To The Myths

"Initiation To The Myths" - the second full length album from the Spartans band from Greece SOCIAL SCREAM!

The new studio album is a fresh, Heavy Metal statement, a real initiation to your aggressive and rebellious but also melodic senses.

Social Scream believe that their music comes from their heart and it's a pure rebroadcasting of what's happening worldwide from their point o view. Vlasis Diamandakos (SS Guitar players) says about their music: "Since, I am the main songwriter of the band, I believe that, living through the 80's and 90's I had the chance to live all the changes that happened, not only in the music industry, and been lucky enough to colour Social Scream's lyrics and music through these experiences. I believe in God and it's connected with the way that I'm writing music, as my lifestyle depends on my values and my -still-unexplored sides. I m always searching everything that my mind can reach out... I believe that my band's difference is that we are not trying to catch up with any trends, on the contrary, we are trying to step forward on our own music style by letting loose, and always to bring up fresh music and, maybe, to create our Greek-Spartan legacy in Heavy Metal music".
