ARROW VIDEO has set the Gold Standard for deluxe packages with three limited editions of the Sci-Fi classic **DUNE**! Arriving in 4k, Bluray and Steelbook, David Lynch's **DUNE** spit-shines the squabble between dynasties for a spice that is the most precious substance in the universe. **Kyle MacLachlan**, **Sting**, **Patrick Stewart** and **Max von Sydow** pepper the all-star cast. And the abundance of extras are nothing to sneeze at! ARROW DUNE good with this one!

If you've got some extra jingle django in your pocket, you must plunk it down for either the **DJANGO** Bluray or UHD. The most controversial Spaghetti Western of all time! Feast on machine guys, prostitutes and savage mutilations. Saucy! Arrow also comes in hot this August with two happening horror films- the Japanese New Wave surreal sensual slaughter show **BLIND BEAST**, and the 1971 drive-in classic **THE BROTHERHOOD OF SATAN**. Satanic Panic!

BLUE UNDERGROUND unmask a two-disc redux of **TWO EVIL EYES**. With this 4K UHD/Bluray combo, the pristine pair of films directed by **Dario Argento** and **George Romero** will fill YOUR eyes with terror! See for yourself in **THE DARK** from **MVD REWIND**, a horror Sci-Fi romp directed by **Dick Clark** and starring **Casey Kasem**. Music to our ears!

Sounding off this month is a documentary on the British powerhouse rock band **IDLES. DON'T GO GENTLE** testifies to this well-respected bands' commitment to strength through vulnerability. They knock down stages and stereotypes! On DVD and Bluray. Keeping it in the British Isles are Scottish punk legends **STIFF LITTLE FINGERS**. The CD/DVD **LIVE AT ROCKPALAST** features two concerts, from 1980 and 1989 from the longest-tenured Irish punk band.

Mellow down easy after all this unbridled excitement with **ENGELBERT HUMPERDINCK**, displaying his modesty with the DVD or Bluray of **TOTALLY AMAZING**. A live show with bonus CD! 1974 was a good year, especially since that is when the jazz/fusion band **OREGON** recorded this lilting two CD show-the band at its mesmerizing best.

Third album by UK New Wave band that combined post punk with sounds of world music

C Cat Trance were formed by multi instrumentalist John Rees Lewis after his departure from Medium Medium. The band are seen as members of the post-punk movement, but that's not all that is to say about their sound. C Cat Trance incorporated ethnic music into their compositions before world music became a popular genre.

"Hope", says Christian Burns - "if there's one word that sums this album up, that'd be it". Now if this sounds unduly upbeat given our times, bear-with - the context will become much clearer. Clara lannotta: Moult CD

C. Iannotta is particularly interested in music as an existential experience - music should be seen as well as heard.

Clara Iannotta's compositions do not tell a story, but rather develop a physiognomy. They nurture sensory spaces in which the ear, figuratively speaking, can wander and contemplate. Spaces that open up beneath a surface like the deep sea beneath the surface of the ocean. Spaces that contain something hidden that indirectly, as a reflex, reaches to the outside world.

SONNY ROCKS

Long overdue – and now finally compiled and released by BEAR FAMILY: the comprehensive tribute to a great pioneer of rock 'n' roll, Sonny Burgess.

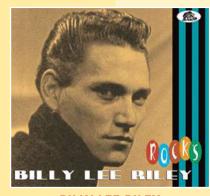

He came into the world May 28, 1929 as Albert Austin Burgess in Little Rock, Arkansas, and remained active well into the new millennium.

His studio career as an independent artist began in the 1950s at SUN RECORDS in Memphis and took him across the U.S. to Nashville, Chicago, Arkansas and New England over the next fifty years.

Our CD compilation does more than just reissuing his early Sun rockers. We've culled the best numbers from that era, some in excellent alternate versions from the Sun archives. But we continue Sonny's story with other outstanding recordings from across his career.

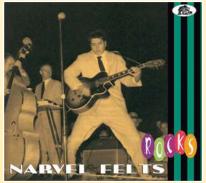

Throughout his life, Sonny Burgess was synonymous with the power of rockabilly and rock 'n' roll; and he became an icon for several generations of rockabilly fans worldwide. With this new CD compilation as your guide you can go on an exciting time travel through several eras of real and untamed rock music.

James Booker - Live Manchester (1977) CD

In 1977 James Booker brought to Manchester, England all of what was great in New Orleans jazz, R & R and R & B.

Before critics crowned Elton John the piano man, there was James Booker, a prolific bluesman, jazzman, soulman and rock-and-roller who struck the keys like a classically trained musician on a bender. This rare live recording is a must-have. And the grooves on the "Rip It Up/ Long Tall Sally" medley alone can give the Rocket Man a run for his money.

Son House - Live At The Gaslight Café, New York, January 3 1965 CD

Probably the first public performance by the "Father of the Delta Blues" following his rediscovery in 1965.

Despite his age, Son House, was still capable of generating a facsimile of the old roar from his Paramount recordings, on occasion, as this set recorded at Gaslight Café in New York in 1965 shows. The versions here of "Empire State Express" and "Death Letter Blues" are startling in their intensity. When Son House is singing and playing on this kind of form, nothing else merits your attention.

RELAX INTO SLEEP VOL 2 at the Speed of Sound (432 Hz)

The new addition to Halpern's best-selling SLEEP MUSIC Series "Insufficient Sleep is a Public Health Epidemic!" – CDC

Steven Halpern is the master of composing beautiful music that relaxes the body and quiets the mind. His unique sleepscapes are so effective, most people never hear the end of the album!

Unlike OTC and prescription drugs, this music becomes even more effective with repeated use. RELAX into SLEEP vol. 2 showcases Halpern's iconic, #1 time-tested healing instrument, the Rhodes electric piano and layers of restful keyboards.

Brainwave Entrainment tones automatically 'entrain the brain' to the slowest delta range (1-3 cycles per second) associated with deep, restful sleep.

There are NO subliminal affirmations on this album.

The music is tuned to 432 Hz rather than standard concert pitch of 440 Hz for added healing potential.

A huge hit with international audiences, Django's brand of bleak nihilism would be repeatedly emulated in a raft of unofficial sequels.

Eloy De La Iglesia's Quinqui Collection Blu-ray Disc

THE AMERICAN DISC PREMIERE OF DE LA IGLESIA'S TEEN CRIME TRILOGY

Short for quincallero (delinquent) and pronounced 'kinky', it was a brutal sub-genre of juvenile gang dramas produced in '70s/'80s Spain. But for Basque writer/director Eloy de la Iglesia, these three Cine Quinqui classics would become the most successful films of his entire career. This graphic neorealist trilogy depicts the crime, violence and drug abuse that ravaged the post-Franco nation.

The Dark: Collector's Edition

A CHILLING TALE OF ALIEN TERROR

In this chilling tale of alien terror, a writer (William Devane, Rolling Thunder) takes a personal interest in a series of baffling, shocking murders in Los Angeles ... and evidence suggests the suspect may not be human. Chariots Of The Gods: 50th Anniversary

Based on Erich von Daniken's international best seller. Did travelers from outer space visit Earth in our ancient past?

It took five years for von Daniken to document, on film, the physical evidence of visits by galactic travelers who came to Earth. Just what they did here and the influences they left behind is the core of the film. In search of basic truths, this film takes the viewer into the far reaches of underground caves and tombs, and to the tops of desolate mountains on every major continent to show the evidence von Daniken has been collecting. Although this controversial film may provide the answers to age old mysteries, it may be the beginning of an entirely new set of questions.
