MVD'S IDOL CHATTER!

The chatter escalates into a Rebel Yell! We are thrilled to announce the first ever live DVD and bluray from the iconic **BILLY IDOL! STATE LINE: LIVE AT THE HOOVER DAM** will have memories flooding back, as Billy performs his hits in the first ever concert in the Hoover Dam (!?!). This was a special show for only 250 fans who paid sick \$\$, now you can see it for a mere pittance-without all that Dam travel. The set features Billy doing an acoustic set and an electric set that rivals the power of Hoover itself! Billy is joined by long-time guitarist Steve Stevens, Sex Pistol Steve Jones and the Kills' Alison Mosshart. Turn up the mains!

No stranger to ear-splitting rock power is guitarist J. Mascis and **DINOSAUR JR.**, who bestow upon us a limited-edition pink splatter vinyl release of **WHERE YOU BEEN**, celebrating its 30th Anniversary. Not to be outdone in the six-string wars is the legendary **TONY MACALPINE**, who ups the ante to seven and eight strings in a reissue of the **DEATH OF ROSES** CD. Alive with hooks, melodies and breathtaking solos.

This month's film titles include **DANZA MACABRA VOLUME TWO: THE ITALIAN GOTHIC COLLECTION** 4K collection from **SEVERIN**. Three films that 'invite you to enter worlds of violence, madness and sexual deviance.' It'll have you Danza with Yourself! MVD are basking in the glow of **RADIANCE** films, as this studio has come aboard in a big way, offering three new bluray titles in deluxe packages. **YAKUZA GRAVEYARD** is a tale of infidelity with the wife of a mob boss (ya crazy?), **THE STING OF DEATH** is a Japanese drama concerning a writer's love affair with another woman that drives his wife mad with distrust (ya think?), and **GOODBYE AND AMEN** is an Italian Action film that finds a CIA agent attempting to overthrow the African government (ya playing with fire!)

MVD REWIND backtracks to 1989 with a DVD, bluray and 4K of **CUTTING CLASS**, starring Donovan Leitch, Brad Pitt and Roddy McDowall. Creepy classmates, an escapee from a mental institution, a lecherous principal, a jealous jock and an axe murderer offer a full curriculum of horrific madness! Eyes Without a Face, and that's just the start of the carnage in this slice 'em up slasher epic!

MVD January-Not just Idol Worship. The real deal!

Check out MVDb2b.com for more great titles from MVD.

The Clockworks - Exit Strategy Vinyl

Exit Strategy is a 13-track labour of love, recorded at Abbey Road Studios and Love Electric, enlisting the production smarts of Bernard Butler.

Exit Strategy centres around a protagonist who moves from Galway to London in search of meaning, certain that, as the main character in the film of his own life, the solution lies in changing his surroundings and acting as someone he's not. The Clockworks weave pop sensibilities with noisy, post-punk, rock-influenced stylings. The songs seem swaggering and dark yet have an epic, nostalgic quality.

Clashing harmonic colors and ever-shifting compositional ideas are buried under fuzz, drawing you into the maelstrom. My favorite album of the year.

Arash Yazdani: Propagation Of Uncertainty CD

All you need to make music is two frequencies - though Yazdani has a clear preference for notes extremely close in pitch.

Olivier Messiaen once said that all you need to make music is a note and silence. For the composer Arash Yazdani, born in 1985 and raised in Isfahan, Iran (and now based in Tallinn, Estonia), a slightly adapted adage applies: All you need to make music is two frequencies - though Yazdani has a clear preference for notes extremely close in pitch. The Clockworks - Exit Strategy CD

Exit Strategy is a 13-track labour of love, recorded at Abbey Road Studios and Love Electric, enlisting the production smarts of Bernard Butler.

Exit Strategy centres around a protagonist who moves from Galway to London in search of meaning, certain that, as the main character in the film of his own life, the solution lies in changing his surroundings and acting as someone he's not. The Clockworks weave pop sensibilities with noisy, post-punk, rock-influenced stylings. The songs seem swaggering and dark yet have an epic, nostalgic quality.

Half man, half beast...
He sold his soul for passion!

Roger Corman and his brother Gene founded The Filmgroup to distribute their own films. Occasionally they picked up projects by other filmmakers, such as *The Devil's Partner* (1961), a macabre tale of an elderly man who regains his youth after making a deal with Satan. This tale of folk terror from director Charles Rondeau stars Edgar Buchanan and Jean Allison.

Special Bonus Film: *Creature from the Haunted Sea* (1961). Corman's spoof of crime films where a gangster knocks off his crew members, blaming their deaths on a legendary sea monster. These two were often paired as a double-feature during the summer and fall of 1961. Beware of the creature with ping-pong ball eyes!

High school students are being terrorized by a crazed axe murderer in this tongue-in-cheek late 80's slasher film

NO MORE PENCILS. NO MORE BOOKS. NO MORE TEACHERS' DIRTY LOOKS.

High school can be murder. Just ask Paula (Jill Schoelen, *The Stepfather*). Her overprotective father disappears during a weekend hunting trip. She's being romantically pursued by Brian Woods (Donovan Leitch, *The Blob*), a creepy classmate who recently graduated from a mental institution. Her jealous jock boyfriend Dwight (Brad Pitt, *Moneyball*) is looking for any reason to release his juvenile rage. The lecherous school principle Mr. Dante (Roddy McDowall, *Fright Night*) is after her tight student body, and her friends and teachers are rapidly falling victim to a silent, shadowy mass-murder. As the body count rises, Paula begins to suspect that any one of her reckless suitors could be the twisted killer. But unless she learns his identity soon, her high school education will quickly come to a nasty end.

Trial Of Lee Harvey Oswald

On November 22, 1963, in Dallas, Texas, the brutal assassination of the 35th U.S. President, John F. Kennedy took place. The man accused of perpetrating this tragic murder was U.S. Marine veteran and Dallas resident, Lee Harvey Oswald. However, before Oswald could be tried and found innocent or guilty of the charge, he was murdered by a local night club owner named Jack Ruby, on November 24, 1963. This film is a courtroom dramatization, utilizing facts and evidence obtained from public records and eyewitness accounts (The names of the witnesses and sources of information have been changed and withheld to protect the privacy of the individuals) and is only to portray what might have happened had Oswald been brought to trial. Shown for the first time in 1964, it was immediately pulled from circulation for unknown reasons and has not been shown publicly since.
