LADIES AND GENTLEMEN THE FABULOUS STAINS [4K ULTRA HD + BLU-RAY]

SNAKES ALIVE!

MVD is scaling new heights for the new year with the unleashing of 4K and bluray versions of **SNAKES ON A PLANE!** Sink your teeth into this **Samuel L. Jackson** high-stakes thriller as he combats venomous snakes meant to eliminate a key mob witness, and the turbulence that follows. A new definition of 'flight risk!' This **Arrow Video** restoration is crawling with extras, including featurettes, new interviews and Easter eggs. Just watch one doesn't hatch under your seat!

From snakes to **WILD BEASTS**, a 4K debut from **Severin Films**. PCP gets in the water supply of a zoo, and animals eagerly lap it up and turn into drug-crazed creatures. Unfortunately for the townspeople, this is no hallucination!

January is a Van Damme good month, as the iconic actor **Jean-Claude Van Damme** is featured in Collector's Editions of two box office blockbusters, **LIONHEART: EXTENDED CUT** 4K and bluray packages and **KNOCK OFF**, making its bluray debut.

They. Won't. Stay. Dead. But in Arrow Video's **EVIL DEAD RISE**, death comes up through the floorboards in this Evil Dead reboot. A family gathering turns into blood-soaked madness! But possess this one early, as the limited edition **EVIL DEAD RISE** will soon descend into deletion!

Arrow unspools more limited editions this month, with the 4K and bluray of the Action film **UNDER SIEGE**, starring **Steven Seagal**, and **CHEAP THRILLS**, where Craig, broke and depressed, is offered a kings' ransom to complete a few challenges, which devolve into 'a revolting catalogue of horror.' There's a twisted truth in these dares!

We are beyond excited to announce the 4K/bluray combo pack of the beloved long-unavailable film **LADIES AND GENTLEMEN THE FABULOUS STAINS**. This 'rock and roll parody' traces the fictional Stains and their rise, fall and rise again. The film is full of music business truths, augmented by talking heads **Fee Waybill** (The Tubes), **Paul Cook** and **Steve Jones** (Sex Pistols) and Paul Simonon (The Clash.) **Diane Lane** and **Laura Dern** star.

Real life music represented with blues master **B.B. KING** and a **LIVE AT ROYAL ALBERT HALL** DVD, and Hollywood metal mongers **PAUL DI'ANNO'S WARHORSE** (Iron Maiden) and **WARRANT** release red vinyl indie exclusive vinyl and live bluray, respectively.

To paraphrase Samuel L. Jackson in SNAKES ON A PLANE: You'll never get mother***** tired of our mother*****January releases!

Oolong - About Your Imaginary Friend Vinyl

Went Viral with the feature in the 5 waves of Emo TikTok

About Your Imaginary Friend came out back in February but it's stayed in pretty regular rotation for me all year and I can't think of many other 2020 releases that have. That said, there's not much that separates Oolong from the pack in terms of style. About Your Imaginary Friend borrows heavily from many of the Cap'N Jazz worship acts that kicked off the emo revival a decade or so ago.

Tangerine Dream - The Sessions IV

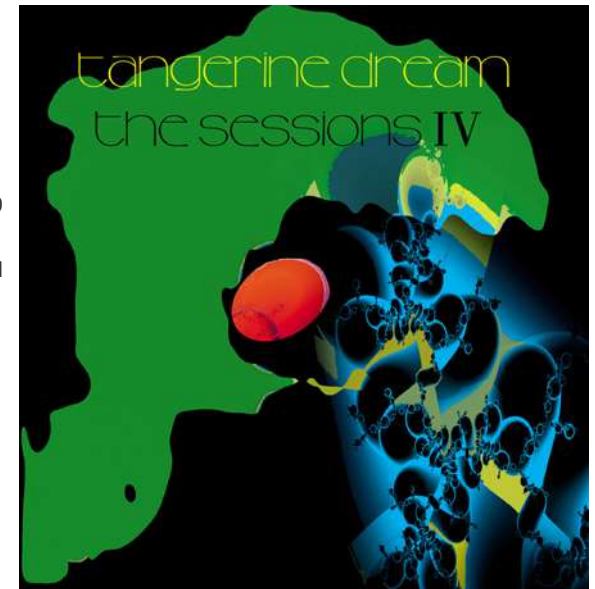

Tangerine Dream live compositions from Festivals in Pisa, Oslo and Gothenburg

Invisible Hands Music are proud to release the 'Sessions IV' EP on Double LP, 140g translucent green vinyl. The 'Sessions IV' LP contains instant live compositions (about 80 min of music) from the current TD line-up Thorsten Quaeschning, Ulrich Schnauss and Hoshiko Yamane recorded from the Saturday and Sunday concerts at the E-Live Festival in Oirschot, The Netherlands in October 2018.

2025 marks the 10th anniversary of Tangerine Dream bandleader Edgar Froese's passing. Thorsten Quaeschning has been the bandleader since 2015, and in 2025 he celebrates his 20th Anniversary of joining Tangerine Dream.

In their imperial years of the 1970s, Tangerine Dream's live concerts were an electronic exploration, improvised and different every night, with little or no relationship to their smash hit albums, which were similarly esoteric. As the 1980s dawned, their recorded work contained more recognizable themes and they scored some of the biggest films of the decade (Risky Business, Firestarter, Near Dark, Thief, Sorcerer).

Now, they are returning in part to those pioneering days, and every show includes a section of improvisation, different every night. The best improvisations are being released as 'Sessions', and Invisible Hands Music is proud to release them out on deluxe double vinyl mastered at Abbey Road by Miles Showell.

Will Wood & The Tapeworms - The Real Will Wood (Third Eye Closed Colored Vinyl) [Indie Exclusive] Vinyl

Recorded in one night in 2017 "The Real Will Wood" is a raucous live album accompanying a concert film of the same name.

"The Real Will Wood" is a genre-bending mockumentary concert film co-created by Will Wood and Chris Dunne (Life in the World to Come, Revelator). Terry Robb - Howlin' Waters

Terry's sound is an eclectic mix of Acoustic Blues, Ragtime and Slide Guitar. All original material with influences from Blues to Ragtime to Hendrix.

Terry Robb is an awarding-winning fingerstyle guitarist, singer, composer, arranger and record producer. His work is featured in Hollywood films, documentaries and biographies. He is associated with the American Primitive Guitar genre through his collaborations with John Fahey and is regarded as a virtuoso of acoustic blues guitar. In his multi-decade career, Robb has released critically acclaimed solo recordings and performed at festivals and concert halls across the United States, Canada and Europe. Robb is a member of the Recording Academy, Oregon Music Hall of Fame and Cascade Blues Association Fall of Fame.

Howlin' Waters, the new album from Terry Robb, reinforces why he's regarded as one of the foremost acoustic blues guitarists of our time (or any time!).

Across 13 glistening tracks, his acclaimed finger-picking mastery brings a new level of flair and depth to a range of moods and styles that not only feel as current as any new blues today, but also offer direct touchstones to Ragtime, Jazz, Folk/Americana and even rock and roll.

As the title implies, Howlin' Waters nods to two of the definitive pillars of the blues as we know it today. And while there are no covers of Wolf or Muddy, Terry Robb expertly shows the unmistakable imprint and influence these giants (and blues in general) has had on practically every genre of modern American music.

Johnny Thunders & Wayne Kramer - Gang War!

New York Dolls & Heartbreakers' JOHNNY THUNDERS, teamed up with the MC5's WAYNE KRAMER! They gigged together for a year

In 1979, Johnny Thunders met up with his teenage hero Wayne Kramer of the MC5, and together they formed GANG WAR. Johnny had just released his 'So Alone' LP; Wayne was not long out of jail after serving two years of a sentence of four for a coke bust. The band lasted almost a year but no records were released. These live recordings bear testimony to this unique partnership between two rock legends. They also demonstrate the difference between the two - as WAYNE KRAMER has said: "Music is important to me and I value the honor, the opportunity, to be an important musician. Johnny, on the other hand didn't consider himself a musician. He considered himself an entertainer."

3 X Teuvo Tulio: Sensuela + Cross Of Love + Restless Blood Blu-ray Disc

A trio of surreal melodramas from Finnish director Teuvo Tulio including CROSS OF LOVE, RESTLESS BLOOD and the notorious SENSUELA

A mad, dreamlike combination of surrealist imagery and unhinged emotional intensity, the films of Finnish director Teuvo Tulio (1912-2000) are melodramas untethered from any sense of naturalism or narrative logic (or often good taste), operating in the same glorious, hallucinatory space as the subversive, Brechtian melodramas of Douglas Sirk and R.W. Fassbinder.

HEART & SOUL: A LOVE STORY

An intimate look at Doo-Wop's teenage pioneers of the 1950s-60s, whose harmonies shaped music, youth culture, and history.

Heart & Soul: A Love Story takes us on an intimate journey of the artists and the impact of Doo-Wop, the vocal harmony masterpieces of teenage artists from the 1950s and 60s, fast fading from history, that formed the bridge to today's popular music and youth culture.

Much of the footage is verité, shot on the scene over the decades, by multi-platinum singer/musician and debut director, Kenny Vance. As a teenage co-founder of the iconic Sixties pop group, Jay & the Americans, Vance shared the stories and lives of the community of artists in this film. Viewers will hear the story of the music and the makers in their own words.

“Heart & Soul: A Love Story is inspiring and should be a must-see for not only today’s artists and music lovers, but for those who have yet to be born in the many generations to come. The film is beautiful from start to finish, but isn’t that the way we want every love story to be?”

THE GIRL WHO LEAPT THROUGH TIME

Directed by Nobuhiko Obayashi

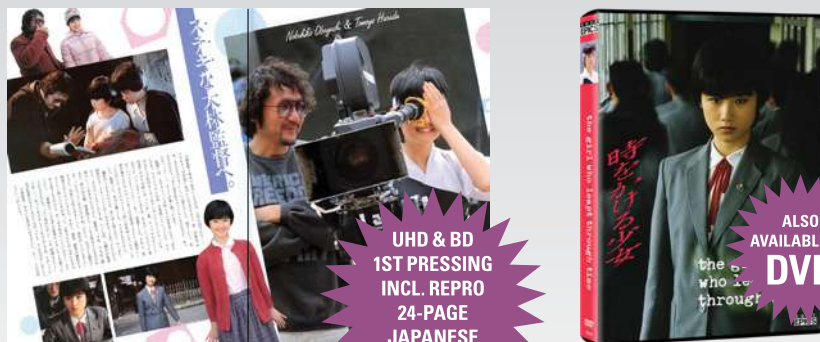

Adapting sci-fi author **Yasutaka Tsutsui's** famous 1967 novel, **THE GIRL WHO LEAPT THROUGH TIME** casts **Tomoyo Harada** in her feature film debut, launching the Kadokawa pop idol into superstardom. After suffering a fainting spell in her school's laboratory, 16-year-old Kazuko Yoshiyama (Harada) begins to experience a strange phenomenon throughout her daily life—temporal leaps backward and forward in time—disorienting her as she relives moments time and time again, as days past return to present. Lost in a sea of time, Kazuko's desperate plead to exist in the present are answered, amidst the swell of FX wizardry, musical overtures and, most of all, the anchor of young love. Lyrical, romantic and longing, **Obayashi's** film is a genuine expression of the filmmaker's reflections on the poetic transcendence of love—cast across the stars for a young girl who lives in tomorrow.

EXORCISMO:
DEFYING A DICTATOR & RAISING
HELL IN POST-FRANCO SPAIN

SEV20023BR
\$219.95
Genre: Horror/Cult
Runtime: 1806 mins

Under the Franco dictatorship, Spain's rigid censorship laws controlled all national entertainment. But following Franco's death in 1975, certain films began to embody a period in Spanish history when cinematic expression became political freedom. Spanish audiences considered these films – featuring graphic explorations of sex, violence and horror – to be a cultural 'exorcismo.' These 18 films, including landmark features directed by Eloy de la Iglesia, León Klimovsky, Javier Aguirre and Eugenio Martín, range from those that dared to actively subvert the oppressive regime to productions made during the post-Franco era of '70s/'80s exploitation excess. Also included is the award-winning Severin Films original documentary **EXORCISMO: THE TRANSGRESSIVE LEGACY OF CLASIFICADA "S"** narrated by Iggy Pop, in which writer/producer/director **Alberto Sedano** explores the history behind the notorious rating that rocked Spanish culture, changed the face of genre films and left its mark on global cinema forever. The majority of the titles in this unprecedented collection are Worldwide Blu-ray Premieres scanned in 4K from original camera negatives, curated with a 168-page book of essays, stills and posters, plus over 21 combined hours of new and archival Special Features.

"MVD Rewind have done a killer job compiling their special features for their Lionheart Blu-ray, managing to land new interviews with Van Damme himself. It's wonderful to find someone putting this level of care into any classic Van Damme flick, but especially a lesser-celebrated one such as Lionheart. Kudos to MVD, too, for once again nailing the ex-rental VHS aesthetic in their box art."

Emergent City

A Brooklyn community fights rezoning and gentrification as developers reshape Sunset Park in this decade-long documentary of resistance.

Emergent City is a gripping, decade-in-the-making documentary that follows the high-stakes battle over Sunset Park, a working-class, immigrant neighborhood on Brooklyn's industrial waterfront. When a group of private developers acquires Industry City--a massive, aging complex of 16 industrial buildings--they propose a bold transformation into a gleaming "innovation district." What follows is a tense and deeply human clash between community residents fighting to preserve their homes, jobs, and identity, and powerful real estate interests promising economic growth.

Award winning filmmakers Kelly Anderson (Every Mother's Son) and Jay Arthur Sterrenberg (Brasslands) embed themselves in the fabric of the neighborhood, capturing intimate moments inside organizing meetings, city council offices, and public hearings. Through a patient, observational style, Emergent City brings viewers face-to-face with the slow grind of grassroots democracy as immigrant organizers, environmental justice advocates, and local leaders confront the machinery of urban redevelopment.

The film refuses easy answers, instead revealing the complex layers of negotiation, hope, resistance, and compromise that define New York City's contested land politics. Voices on all sides--developers, politicians, and activists--are given space, allowing the story to unfold with nuance and urgency.

As climate concerns, housing instability, and economic inequality intersect on the industrial waterfront, Emergent City becomes more than a local story--it's a portrait of 21st-century urban transformation and the people fighting to shape its future from the ground up. A vital chronicle of civic engagement, the film asks: Who gets to decide what a city becomes?

Thirty years later, Luther is all grown up and out on parole, after spending his childhood behind bars for a series of grisly murders. KULA SHAKER

WORMSLAYER

KULA SHAKER'S NEWEST ALBUM!

How many other artists can claim to have actually headlined Glastonbury twice in the same weekend? Scored one of the fastest selling double-Platinum debuts of all time, a run of Top 10 singles, opened for Oasis at their era-defining Knebworth shows, and how many bands from that era are still at the top of their creative game, their original line-up intact, and, perhaps most remarkable of all, still managing to remain best of friends?
