Sportswear is a world of its own, a vision that encompasses not just music, but art, storytelling and fashion as well.

Sportswear is a world of its own, a vision that encompasses not just music, but art, storytelling and fashion as well. The genre that "All There Is" falls within has yet to be invented. Ina Forsman herself describes her music as cinematic soul, with which she doesn't want to create a new category, but hits the nail on the head descriptively. On the one hand, her songs are influenced by the soul of the 1960s and 1970s and give undisguised insights into mental states.

Ride with the Rasses was an unequivocal statement of Prince Lincoln's Rastafarian faith. Righteous Fool - Righteous Fool Vinyl

Brilliant, truly brilliant. There are no other words to describe this album!

A fantastic project put together by Mike Dean and Reed Mullin when Corrosion Of Conformity were on a hiatus. They brought in guitarist Jason Browning and a full album was recorded but never completed. COC kicked back into life and Righteous Fool never came to fruition, even moreso when Mullin sadly passed away in 2020. However, the album is now mixed and mastered and it is absolutely stunning!

Fleetwood Mac - Madison Blues

Collection of early 70s era Fleetwood Mac pressed on triple vinyl

Fleetwood Mac made it big twice over: first as young kings of the late 1960's British blues boom - blues fanatics who nonetheless made the pop charts with a batch of memorable songs penned by founder Peter Green. Then secondly, as the band that with its Rumours album Californian line-up, tapped into a whole new market in the mid-1970's which became known as AOR - adult oriented rock. The music here on the triple LP Madison Blues is from a pivotal eighteen months in Mac's history as it lost its original if-it-ain't-blues-we-don't-wanna-know attitude and looked to its own songwriters - and America's West Coast sound - for inspiration. After Peter Green's exit in May 1970 the rest of the band bravely decided to carry on as a 4-piece, and so rented an oast house called Kiln House to try and 'get it together in the country. Christine McVie joined, and one of the stand-out songs, 'Station Man', would endure for Mac in the bleak years before they moved to California in 1974 where they struck gold with their eponymous white album and then Rumours. 'Station Man' eventually found its way into the live set-list of the Buckingham/Nicks line-up and listening to it again here you can hear why: in there, as far back as 1970, are some trademarks of the Rumours sound: three-voice harmonies, in-song tempo changes and ringing guitar sounds. Similarly, 'The Purple Dancer' and 'Jewel Eyed Judy' showcase a vocal harmonies and melodic sense of things to come for Fleetwood Mac many miles down the line. Christine McVie was a crucial link in the chain, and this collection ends with a promotional session from the Christine Perfect Band with ex-Yardbird Tony 'Top' Topham and Rick Hayward on guitars, Martin Dunsford on bass and Chris Harding on drums.

Brian Charette - Jackpot CD

Organ player Brian Chartette delivers a super swinging quartet session with memorable tunes that are inspired by Charette's hero's of the Hammond B3.

Stabbing Westward "Ghost"

Stabbing Westward is back with a vengeance. Loudwire nailed it: "20 years later, they are back in the studio making the same intense electro-goth bangers they were doing two decades earlier. Now, the compressed crunchy guitar riffs, steady pounding beats, and signature wail of singer Christopher Hall highlight a tension that seems to fit perfectly this day and age."

Their latest single "Ghost" shows the band is wasting no time reclaiming their status as the driving force in industrial rock. Christopher Hall's tale of abandonment and sorrow immediately grabs our attention. He is fragile and wounded, but also incredibly powerful when he lets loose and soars to the sky. "Will this isolation last forever" is just one line that probably resonates with all of us.

Stabbing Westward has not only managed to stay true to their original sound but Walter's production has expanded it to fit the frantic new reality of the 21st century. Their reimagined version of "Why" from their hit album "Wither Blister Burn & Peel" is yet another proof of that. It conjures up a desolate world scrambling to realign itself with a new grim reality. Christopher Hall may well be the prophet of the end times - epic and hopeless all at once.

The single is rounded out by the brilliant Assemblage 23 / Tom Shear "Ghost" remix and Christopher Hall's own reinterpretation of the title track. The band has not only kept their energy, drive, and intensity but also gained a depth of maturity that makes "Ghost" the perfect followup to their highly praised fifth studio album "Chasing Ghosts".

Tracklist:

1. Ghost [Original Mix] • 2. Ghost [Assemblage 23 Remix] • 3. Ghost [Christopher Hall Remix] • 4. Why [Re-Imagined 2022]

Year of Production: 2022

Don Rondo - White Silver Sands: The Don Rondo Collection 1955-60 CD

He was certainly an artist who arrived on the scene at the wrong time and deserved more chart success than he achieved.

Don Rondo was a singer with a style more akin to the middle-of-the-road market of the early 1950s but who came to the fore with hits with that approach early in the rock 'n' roll era,

The Aristocrats & Primuz Chamber Orchestra

Classic cuts from The Aristocrats' catalog are reinvented in collaboration with Poland's Primuz Chamber Orchestra.

This project began when we randomly stumbled upon a YouTube video of Primuz Chamber Orchestra performing one of our songs, as reimagined by composer/arranger Wojtek Lemański. Their flawless execution of a highly challenging arrangement (which was startlingly inventive and yet remained entirely faithful to the spirit of the original composition!) inspired us to reach out and propose a collaboration. The process ultimately led to this album, which comprises nine trio performances taken from our previous studio albums, remixed by Forrester Savell and transformed by the orchestra's rendition of Wojtek's string arrangements. This approach enabled Wojtek to create orchestrations that treated many of the spontaneous, improvised elements from our original "band in a room" takes as if they had been part of the actual compositions... yielding some unique results! We're truly proud of the way this project turned out... and we're profoundly grateful that serendipity somehow brought us all together for this collaboration. Enjoy! - THE ARISTOCRATS

Sportswear is a world of its own, a vision that encompasses not just music, but art, storytelling and fashion as well.

Sportswear is a world of its own, a vision that encompasses not just music, but art, storytelling and fashion as well. Sonically we felt drawn to elements from early goth, new wave, and house, taking them through our filter of indie, psychedelia, r&b and modern pop. We were also inspired by the style and hyper-individualism of late 90s club culture and anime.

The genre that "All There Is" falls within has yet to be invented. Ina Forsman herself describes her music as cinematic soul, with which she doesn't want to create a new category, but hits the nail on the head descriptively. On the one hand, her songs are influenced by the soul of the 1960s and 1970s and give undisguised insights into mental states.

Johannes Tonio Kreusch & Doris Orsan - Dialogues CD

The violin and guitar duo is one of the rarest lineups in the music world, across all genres

Extraordinary artists doing extraordinary things on "Dialogues". We start with a rarity by Franz Schubert, his "Sonata for Arpeggione". The arpeggione was a now-forgotten two-piano instrument, a kind of guitar-cello with frets, but played with a bow.

Johnny Moped's "lost album" from 1990, finally gets a reissue!

Klaus Schulze - Big In Japan [Limited Reissue] CD/DVD (Reissue)

Big in Japan album for sale by Klaus Schulze was released Apr 19, 2011 on the Made in Germany label. German synth master Klaus Schulze arguably peaked in the mid-'70s with albums like Timewind, Cyborg, and Moondawn, but he's still got a sizable cult audience and he's still out there performing. Indeed, this performance is notable for featuring Schulze on electric guitar (on Sequencers Are Beautiful) as well as more percussion than usual on La Joyeuse Ap...

Black artists in C&W are still considered pretty much a "novelty" or an exception.

Righteous Fool - Righteous Fool CD

Brilliant, truly brilliant. There are no other words to describe this album!

A fantastic project put together by Mike Dean and Reed Mullin when Corrosion Of Conformity were on a hiatus. They brought in guitarist Jason Browning and full album was recorded but never completed. COC kicked back into life and Righteous Fool never came to fruition, even moreso when Mullin sadly passed away in 2020. However, the album is now mixed and mastered and it is absolutely stunning.

100-PAGE BOOK

3-DISCS DIRECTOR'S CUT, U.S. VERSION & SOUNDTRACK

To celebrate the centennial of Sir Christopher Lee, Eurocrypt Collection 2 presents five of the most unexpected, underrated and underseen films of the iconic actor's European career. Immediately following HORROR OF DRACULA, Lee reprised the role in the quirky 1959 Italian comedy **UNCLE WAS A VAMPIRE**. Lee speaks fluent German opposite **Klaus Kinski** for the crazed 1962 krimi **THE SECRET OF THE RED ORCHID**. In the 1973 UK psycho-thriller **DARK PLACES**, Lee toplines a cast that includes **Joan Collins**, **Herbert Lom** and **Jane Birkin**. Lee's final performance as The Count in the 1976 French comedy **DRACULA AND SON** can at last be seen in its superior **Director's Cut**, while the ultra-rare 1988 Dutch drama **MURDER STORY** brings Lee into the sex shoppes of Amsterdam. Each film has been remastered from original negative materials with over 15 total hours of trailers, commentaries, alternate cuts, vintage interviews and new featurettes, plus the **DRACULA AND SON** soundtrack and an all-new 100-page book by Lee biographer **Jonathan Rigby**.

Italian horror master Dario Argento elevates the giallo genre to new heights with 1982's *TENEBRAE*, a darkly humorous and notoriously grisly murder-mystery that many consider to be one of his finest works. American mystery author Peter Neal (Anthony Franciosa, *Death Wish II*) comes to Rome to promote his newest novel, *Tenebrae*. A razor-wielding psychopath is on the loose, taunting Neal and murdering those around him in gruesome fashion just like the character in his novel. As the mystery surrounding the killings spirals out of control, Neal investigates the crimes on his own, leading to a mind-bending, genre-twisting conclusion that will leave you breathless! Co-starring John Saxon (*A Nightmare on Elm Street*, Daria Nicolodi (*Phenomena*), John Steiner (*Caligula*) and featuring beautiful cinematography by Luciano Tovoli (*Suspiria*), this stunning all-new 4K restoration includes hours of extras and, for the first time ever, the alternate U.S. theatrical cut, *Unsane*.

This documentary puts an amusing spin on US oligarchs' genocidal activities, from eugenics to perpetual war, to the deadliest vaccines in 100 years.

Shots puts an amusing spin on the little-known history of how America's wealthiest families financed genocidal, anti-ethnic eugenics in America and Nazi Germany. It exposes how they pushed for perpetual wars and bought control of the media. The government then censored experts, blocked therapeutics, corrupted hospitals and allowed the deadliest vaccines in a century around the Covid-19 pandemic.

Miami Blues (Special Edition)

REAL BADGE. REAL GUN. FAKE COP.

Junior Frenger (Alec Baldwin, The Departed, "30 Rock") is trouble and Sgt. Hoke Moseley (Fred Ward, Tremors, Short Cuts) knows it. Junior, smooth-talking, good-looking ex-con tiptoes on the borderline of psychotic behavior in this thriller-with-a-comic-edge. Shots: Eugenics To Pandemics

This documentary puts an amusing spin on US oligarchs' genocidal activities, from eugenics to perpetual war, to the deadliest vaccines in 100 years.

Shots puts an amusing spin on the little-known history of eugenics. It traces the genocidal, anti-ethnic eugenics movement which resulted in the sterilization and elimination of millions. It exposes how the wealthiest families financed the evolution of eugenics into Nazi Germany, and pushed America into perpetual wars. These families further influenced the government's elimination of financial liability for vaccine manufacturers while simulating run-ups to the 2020 pandemic. By that year the wealthiest had bought and controlled the media, and censored medical experts that criticized government actions. Shots illuminates how the government censored effective therapeutics, financially incentivized hospitals to adopt misleading reporting practices and deadly treatments, doubled global deaths with lockdowns, bankrupted small businesses, and allowed the most unsafe vaccines in a century.
