Created in 1994 by Justin Pearson, merely a teenager at the time looking to release his bands' music on a label that matched his own odd tastes and creative aesthetics, Three One G grew out of necessity. Since then, it has always been a labor of love, an all-hands-on-deck DIY approach to represent familiar faces, band mates' bands, tour family, and those who are kindred spirits, that connect with the culture that the label holds dear. What started with innovative music and vinyl from bands like Swing Kids and Blood Brothers, releases eventually branched out to include titles from a more diverse set of artists. In this way, the label serves as documentation of an auditory evolution for many musicians over the years.

Where else could one find legendary rapper Kool Keith on the same label as a heavy, noisy band like Metz? Three One G is the vessel to build these winding, strange, impractical and yet somehow logical bridges between genres, regions, and every other barrier out there that exists to try to separate people who are more alike than they realize. It has managed to do this through its continued DIY ethos and stubborn efforts to maintain the same high, uncompromising standards that it has held itself to from the beginning.

“Wake up you **ing hippies!” Sha Na Na’s original bass singer, Alan Cooper, shouted.**

It was the summer of '69, as so many of the best stories start out. It had poured rain most of Sunday, and by Monday morning, everyone still at Woodstock was high and covered in mud, sticking around to watch Jimi Hendrix close the show. The stage was sinking and having electrical problems. It was grand and dismal at the same time, and also, somehow, the biggest break the up-and-coming band, Sha Na Na, could have had.

The band had originated as a 12-piece a cappella group at Columbia University. Known at the time as the Columbia Kingsmen, they'd been doing a handful of performances a year: freshman orientation, a Christmas party, and an event for the psych ward at Saint Luke's Hospital.

When they stepped onto that iconic Woodstock stage at Bethel Woods, it was Sha Na Na's eighth gig. Their first seven saw bookers stealing half their fees under the table, and sometimes they got 15 minutes on stage and didn't get paid at all. While audiences seemed to love them, they weren't sure they'd last another six months.

Steve Paul's Scene was an underground place that seated maybe 200 people. The club manager said, "Sure, you can play next Monday night. But I can't pay you, and I don't know how you're going to get 12 guys on that stage." Well it doesn't matter how you fit 12 guys on a stage when Jimi Hendrix is in the audience and likes your act.

This humorous mini-biography tells the story of how Ivy League greasers made it to the most infamous hippie festival in history, with an in-depth look at the men behind the gold lamé suits. These never-before-told stories, spanning the course of their 50 years as a touring Rock 'n Roll band, take you backstage at Woodstock, to the dressing room of *The Sha Na Na TV Show*, the set of the movie *Grease*, and the front row of the Hollywood Bowl. And, of course, perhaps the most iconic moment of Sha Na Na's career—an exasperated Woodstock announcer, not sure his mic was on, shouting:

"Ladies and gentlemen, Sha Na Na! Harold, turn up the mic!"

Now, 50 years after the Woodstock festival and the band's inception, they are still full-time rock stars, playing 25 shows per year. It's been a long and winding road that for now has no end.

Not that this is any concern of The Galileo 7 of course. There Is Only Now, and this record is nothing if not Now!

Spirit "Live At Rockpalast 1978"

SPIRIT's concert, a Rockpalast Eurovision broadcast from March 4th / 5th 1978, turned out to be one of the highlights of the first Rockpalast series (1977 to 1986). Randy California's guitar style is strongly influenced by Jimi Hendrix, in whose band he had already played at the tender age of 15. He performed HENDRIX' versions of the DYLAN songs "Like A Rolling Stone" and "All Along The Watchtower", adding an impressive bass foundation with his Moog synthesizer, which he pedaled like an organ.

The drumset of Randy's stepfather ED CASSIDY was very impressive as it contained two kettledrums like in a classical orchestra. His drum solos are considered the highlights of this concert. Larry "Fuzzy" Knight completed the power trio. Towards the end of the show DICKEY BETTS came back on stage to jam with SPIRIT. His melodic Southern Rock guitar was an exciting contrast to RANDY CALIFORNIA'S tough guitar style.

Tommy James - Alive CD

FIRST RELEASE IN 10 YEARS!!

Here are Tommy's comments...

Alive started out as an acoustic album, but...little by little...I realized that there was no way I could interpret the songs acoustically so I gave in to electricity! It was a very long time in the making. Some songs go back 30 or 40 years and some are brand new, and there are lots of different kinds of songs.

Tommy James - Alive

FIRST RELEASE IN 10 YEARS!!

Here are Tommy's comments...

Alive started out as an acoustic album, but...little by little...I realized that there was no way I could interpret the songs acoustically so I gave into electricity!

It was a very long time in the making. Some songs go back 30 or 40 years and some are brand new, and there are lots of different kinds of songs. If there's one big theme it's that there's absolutely no theme.

I wasn't listening to the radio or what was going on around me musically; I just recorded songs that I had wanted to do for a long time or now.

For instance, there's a ballad version of "I Think We're Alone Now" that's very different than the original one. I'd also been thinking about a remake of "Draggin' The Line" for a long time and felt that a street or rap version might be perfect.

So I got a hold of T.O.N.E.-z, who is a great friend and an amazing talent, to lay down a rap on "Draggin' The Line." Then, I called in another great friend Stevie Van Zandt to record a guitar solo.

The Rolling Stone's "The Last Time" had been rattling around in my head for awhile so I did a very different version of it. T.O.N.E.-z contributed to that one, too.

For the remake of "I'm Alive," a song I originally recorded for my Crimson and Clover album, I asked my good buddy from the Rascals, Gene Cornish, to do some guitar parts for it.

Jonathn Ashe, who played bass on "Mony Mony" and has been a Shondell for years, was a constant presence as a co-writer and player. He really played a key part in the process.

And my good buddy Jimmy "The Wiz" Wisner was my co-producer until he passed away.

Alive has really been a labor of love: a personal statement of where I am today.

From director of Rise and Fall of The Clash, Looking for Johnny and Sad Vacation comes this documentary on Stiv Bators

Almost 30 years after Stiv's mysterious death in Paris, the Dead Boys have become the stuff of (Punk) legends but unsurprisingly, the story remains largely untold. How did this native from Girard, Ohio end up living the life of Riley in Paris, France? Was Stiv really hit by a car (or a taxi...) on that fateful day? Who was the real Stiv Bators? These are a few of the questions answered in STIV.

Constructing Albert

The film captures Albert Adria's attempt to escape the shadow of elBulli restaurant and of his older brother, Ferran..

The much-honored Spanish restaurant elBulli, which closed in 2011, was once considered the best in the world, but this intriguing foodie documentary reveals a rival - a sibling rival, that is. While elBulli's head chef Ferran Adrià was proclaimed a genius, it seems that behind the scenes simmering wasn't confined to stockpots. Over a four-year period, filmmakers Collado and Loomis follow the story of Ferran's former partner and co-chef, younger brother Albert, as he steps out of the long shadow of elBulli's legacy and stakes his own claim to fame on an ambitious string of five restaurants in Barcelona's theater district, each featuring a different wildly innovative cuisine.

Trash Brats - American Disaster CD

From the mean streets of Detroit come the flamboyant legendary glam rockers, the Trash Brats, all glitz and hammer!

"American Disaster" is the Trash Brats take on their (broken up) state and a sign of the times when it was recorded. Winning and losing never sounded so good! Guitar driven by Ricky Rat with a visionary wordsmith in the front seat, the infamous Brian O'Blivion! And a fleshy rhythmic groove supplied by bassist Toni Romeo (now with Easy Action) and drummer Craig Cashew. This band had fans of hopped up rock and roll by its painted fingernails through two decades. Now the music on "American Disaster" can be relived. This outfit never goes out of style!

A government satellite crashes outside a small town in New Mexico - and within minutes, every inhabitant of the town is dead, except for a crying baby and an elderly derelict. The satellite and the two survivors are sent to Wildfire, a top-secret underground laboratory equipped with a nuclear self-destruct mechanism to prevent the spread of infection in case of an outbreak. Realizing that the satellite brought back a lethal organism from another world, a team of government scientists race against the clock to understand the extraterrestrial virus - codenamed "Andromeda" - before it can wipe out all life on the planet.
