

GARTH HUDSON

The Sea to the North

MVD

When people think of The Band, the names Levon Helm, Robbie Robertson, Bob Dylan and Ronnie Hawkins are usually the ones muttered first. But surprise, surprise: there are actually other members and they're all damn good artists, too. Rick Danko, Richard Manuel and of course, the crazy-lookin', multi-instrumented bearded dude who kinda looks a little like Robertson Davies. Garth Hudson's recently re-released debut album is a veritable smorgasbord of joy including six beautifully orchestrated ditties. **SF**
