Fan of the Dead is about a young Frenchman named Nicolas Garreau who embarks on a three day visit to Pennsylvania, to follow in the footsteps of legendary filmmaker George A Romero and the beginning of 'The Dead' franchise.

Documentary filmmaker Garreau is on a one-man-mission to pay homage by visiting and recording exclusive footage of from prime locations and various buildings from **Night of the Living Dead (1968)**, **Dawn of the Dead (1978)**, **Day of the Dead (1985)**, **Creepshow (1982)** and Tom Savini's 1990 remake of **Night of the Living Dead**. While having a chance to briefly interview some of the cast from **Dawn of the Dead (78)**, at the Pittsburgh Comic Convention in 2005.

one guy, most of the time the lighting was spot-on. Give or take occasionally in certain parts of the documentary were fairly dark and a little shaky. So yeah, the picture quality is pretty much your typical home-shot vacation video.

THE AUDIO *How crisp is the sound?*

With a voice narration in English (which you can easily understand) it is dubbed over the original soundtrack, since the audio was recorded from the internal microphone from the handheld camera it leaves the audio quality fairly flat and dull.

THE EXTRAS *Are there any extras?*

Nothing much going in terms of extras, only a photo gallery and a handful of trailers from Cheezy Flicks.

FINAL THOUGHTS*Is it worth your hard earned cash?*

Fan of the Dead is a documentary that only those who are hardcore Romero fans can truly appreciate. I do consider myself a full-on loyal fan, especially with all the early years of Romero. But honestly I have to say, this documentary really didn't cut it for me, in terms of entertainment as much as I thought it would of. I think visiting the locations in person would probably have a greater impact on any Romero fan than watching it in the comfort of your own home. Unless you like sucking down bong hits, are too fat to get out of the house, or, you can't travel overseas because you're afraid the plane crashing into a tall building or in an open field. Well then don't fret, you're in luck because you can now plant your ass back into the couch and let Nicolas Garreau's **Fan of the Dead** do all the hard work for you for a low cost of \$9.95.
