Anthony B recently finished a six-week European tour, where he is very popular and successful. Just prior to that, in September 08, he did a three-week western U.S. tour, on which he performed The Earthdance Festival in Mendocino CA, and the Eugene Celebration in Oregon. Prior to that, in March 08, he did a Colorado tour on which he hit some of the main Rocky Mountain outposts. February, he performed on the Ragamuffin Bob Marley Day shows in Long Beach, Santa Cruz, San Francisco, and Humboldt County February, 2008, where he was a highlight on all of these bigger stadium shows. These shows were part of a successful west coast tour.

Anthony is currently one of the hottest live reggae performers in the world. His band is complete and on point, regularly carrying female vocalists and their own engineer. His on-stage energy makes him a top-rated performer in Jamaica and abroad. His following has grown in Jamaica, North America, South America,

Europe, Japan, and Africa. He consistently draws well in all of these markets, and is currently in great demand.

Anthony B has stayed faithful to a lyrical content of spiritual questioning of the current events, replete with socially proactive commentary. His commitment to the people's struggle and raw lyrics are reminiscent of the late great Peter Tosh.

In 2007, Anthony B was a top performer on the Reggae Rising (formerly Reggae on the River) festival in Northern California. Anthony B's past tours in America have created much interest and enthusiasm.

His heavy international touring schedule has not slowed his prolific stream of single and CD releases. His CD releases include titles such as - *So Many Things*, *Universal Struggle*, *Seven Seals*, *That's Life*, *Street Knowledge*, *Black Star*, *My Hope*, *Justice Fight*, *Untouchable*, *Suffering Man* and *Higher Meditation*. His *Fire Pon Rome*, *Damage* and *Raid Di Barn* hits have achieved anthem status worldwide. A quality DVD was recently put out, featuring his 07 Reggae Rising performance, interspersed with live interviews.

Anthony B is currently a dynamic musical force in the industry. He has hit the world running, with remarkable force and energy, raising the standard of the reggae genre. Anthony B can be viewed live in concert doing *Raid Di Barn* at Reggae Rising 07 on the following youtube link:

BIOGRAPHY: ANTHONY B

Draped in the rich colors of African cloth, his trademark staff in hand, and his dreadlocks wrapped regally on his head, Anthony B embodies all that it is spiritual and proactive about Reggae music. This artist has been steadfast in his mission to represent the poor and oppressed, using sharp lyrics to confront political injustices and bring the issues of the people to the forefront. In the process, he has raised the quality of performance standards and lyrical content for the industry, through the release of 10 albums, over 1000 singles and appearances on over 100 albums in the last 13 years. Anthony B's musical journey started in the church, back when he was still called Keith Anthony Blair in Clark's Town, Trelawney. Here he was immersed in the thunderous

of Otis Redding and the incomparable Peter Tosh.

In 1992, Anthony B left his hometown and set out to make his mark on Kingston's music scene. He rebuked the trend of girl and gun lyrics popular at that time and remained faithful to words of spiritual consciousness and social conviction. He started working
