

GREG LAKE/Same (MVD Audio) Greg Lake is one of the members of the Emerson, Lake and Palmer and this is a live CD that he did. Yes, he does the classic "Lucky Man" and does it quite well. He does a couple other ELP tunes and well as some King Crimson stuff, which I myself wasn't familiar with, but they sounded pretty good to these ears. The production for a live releases sounds good as the hall is playing in sounded quite good. He has a 7 piece band that helps him bang out the tunes and if your a fan of older progressive rock or a King Crimson or ELP fan, you will want this in your collection. Info:
