

STUBBLE

THE BEACH BOYS AND THE SATAN

(Zeit1)

Mostly this is a history of Brian Wilson, his music, and surf music. The present day Brian is a sad person who describe virtually everything as “scary.”

Interestingly he was always afraid of the ocean, even before his brother Dennis drowned. The “investigation of their connections to the Manson Family was pretty weak. The best part was Kim Fowley singing little ditties that make fun of each year in the 1960s. -
