**[G.G. Allin bobblehead action figure: throwable feces sold separately?](#)**

We thought you'd want to get a look at this: Aggronautix's limited-edition G.G. Allin bobblehead "throbblehead" action figure, the perfect gift for any of the discerning shit-tossing junkie scumfucks in your life. "This ghoulish effigy," reads the product description, "is a striking representation of GG ALLIN circa 1991. The figure, limited to 2000 numbered units, stands at 7 inches tall and is made of a lightweight polyresin. Displayed in a tri-windowed box, here GG is accurately sculpted right down to the tattoos, blood, and filth."

We can definitely see the "filth" -- which we're going to read between the lines as being GG's own butt juice. Then again, we suppose we'll figure out how authentic this really is if we turn him over and find some skidmarks.

Oh, right: there's also a [Tesco Vee](#) available. And a two-headed Dwarves model in the works.
