Wendy O. Williams is a Throbbleshed

In the annals of punkdom, deluxe reissues, illustrated biographies, and Hollywood biopics have their place, but you know you've really made your mark when you're immortalized as a Throbbleshed. The Aggronautix company has been turning out their punked-up variation on the bobblehead doll since 1986. Some of the punk heroes who have been given the Throbbleshed treatment thus far include G.G. Allin, Tesco Vee of the Meatmen, Milo of The Descendents, and Joe "Shithead" Keithley of D.O.A.

Well, the punk boys' club has been crashed at last, and who better to do it than **Wendy O. Williams**, the late, great leader of The Plasmatics. Aggronautix unveils their latest Throbbleshed as a salute to the leather-lunged, high-mohawked engine of destruction who came crashing into America's living room on her band's notorious 1981 Tom Snyder TV appearance. As famous for detonating automobiles onstage as for leading her hard-charging band's in-your-face amalgam of punk and metal, Wendy O. Williams is one of rock 'n' roll's ultimate anti-heroines. And now you can have her mohawk-bedecked head bobbling back and forth on your dashboard or mantelpiece indefinitely. You'd better act fast, though, it's a limited edition of just 2,000 numbered units, and in case you're wondering, G.G. Allin is already sold out.
