Keith Morris Gets a Bobblehead

11/08/2010

The arm points to the mind. The arm points to the mind...

By Blurt Staff

It's a timely, what with the emergence of the Keith Morris-fronted [punk combo OFF!](#), currently in the process of unleashing a stack of EPs that will culminate in a box set later this month: we're

talking the official Keith Morris bobblehead, or more accurately, a *throbb*lehead. As pictured above, there's plenty of 'tude emanating from the erstwhile Black Flag and Circle Jerks singer.

We are advised that "while the figure is labeled a Throbbhead, it's actually Keith's arm that does all the movement, aggressively pointing towards his mind." Lo-tech, and awesome.

The Morris 'head joins a storied case of other punk icons, pictured above - see if you can identify 'em all. Meanwhile, view the ad taken from Morris' answering machine, below.
