Roky Erickson 'Throttlehead'

JUL 21 Posted by [santasangreredux](#)

Here is my newest piece of music memorabilia...known to my wife as '*useless stuff my husband spent money on*'...the Roky Erickson Throttlehead. It is my first purchase from [Aggronautix](#), a company that has a nice slice of the bobble head market catering to the old school punk set. The company has made Throttleheads of Wendy O. Williams, Milo from the Descendants, the Dwarves, Keith Morris, a few GG Allin and others. Most are limited to 1000 signed and numbered pieces (Wendy O is 2000). When I saw Roky I had to get me one. The price is right at \$19.95, the wife can't be too pissed at only twenty bucks...

The quality is very good, it is one sturdy piece of resin. I am very happy with this unique toy for the music nut. I will be checking for the next 'must have' from Aggonautix...a Rollins from Black Flag would be nice or Greg Ginn in full teeth bared grimace...how about a Gibby Haynes... or a Captain Beefheart...or John Doe and Exene...or Bo Diddley...sigh.

Getting licensing agreements to produce these things must be a big headache, so I guess I shouldn't hold my breath waiting for a Jello Biafra or Kim Deal or D. Boon or Darby Crash or Gene and Dene Ween...OH! How about authors?? A Charles Bukowski or Tom Robbins or Kurt Vonnegut...

Click over to the [Aggronautix](http://www.aggronautix.com) website and snag something before they are all gone. Then you will only find them on eBay for double the price.
