J Mascis Bobbleheads Exist

Because we all need a new and interesting way to show off our love for Dinosaur Jr.'s frontman, some company named Aggronautix has created a J Mascis (/artists/j-mascis/) bobblehead. That's what it looks like in the picture above this text, though you're not really able to get the *fill* effect. Apparently this thing features real doll hair, which is a first for Aggronautix and also perfect given Mascis' amazing silver locks. Buy it here (http://aggronautix.com/products.cfm?productid=48) if, you know, you're interested. [Stereogum (http://stereogum.com/929611/j-mascis-gets-a-bobblehead/news/)]
