We know nothing about [Iggy Pop](http://www.examiner.com/topic/iggy-pop) (<http://www.examiner.com/topic/iggy-pop>) except that the publisher of my first book, Liza! Liza! (The Liza Minnelli bio *The New York Times* named "One of the Best Books of the Year") has published his autobiography.

Iggy is icky yet haunts us.

Now he get news that Drastic Plastic Collectibles and Impact Merchandising are unleashing a limited-edition Iggy Pop bobblehead.

The company flaks insist that "since his raucous proto-punk, peanut butter smearing days with The Stooges, few "street walking cheetahs" have mastered the maniacal with as much grit, gusto and flair as Iggy."

Maybe that's why we don't like peanut butter?

This polyresin, seven-inch bobbleheads are hand-numbered and limited to 1,000 pieces.

Wonder if they'll send us one?
