City Slang: Iggy Pop bobbles

November 4, 2012

Aggronautix has a new bobblehead toy on the shelves, of our very own **Iggy Pop**.

The polyresin statue stands at 7 inches tall is limited to 1000 units and, while it might not be the complimentary when it comes to the facial features, it does capture a recent-years Ig in his raucous glory.

They say, "Since his raucous proto-punk, peanut butter smearing days with The Stooges, few "street walking cheetahs" have mastered the maniacal with as much grit, gusto and flair as Iggy Pop."
