**Howard Zinn & Anthony Arnove**

**"Readings from Voices of A Peoples History of the United States"**

(AK Press, MVD, Seven Stories)

This is a pretty straight forward DVD of readings from the book Voices of A People's History of the United States. Howard Zinn is a historian with a heart for the people who lived through the terrible times through out American History and this is their voice, their stories. This is the truth from the real people who lived it, and not the stories from the people in power. This is an eye opening experience. If you are into politics, history or a fan of the brilliant man Howard Zinn I strong think you should pick this DVD up before the people in power have their way and take it off the shelves.
