KULT OV AZAZEL/VROLOK

Feast of Sacrilegious Impurity

Arctic Music

9 Skulls

The mighty Kult Ov Azazel returns with brothers in Satan Vrolok to lay waste to the pillars of humanity and enslave the blind Christians in a pit of everlasting torment. Featuring never before released tracks from Kult Ov Azazel's 2001-2004 time period this is an essential purchase for fans of the band that is on almost everyones "top ten" list of U.S. Black Metal bands. Those unfamiliar with Vrolok will find themselves transported to a graveyard of madness and sorrow by the swirling soundscapes presented herein. Stripped-down to bare essentials, Vrolok howls like an unholy wind of their four tracks and their no-frills style of ancient Black Metal offer the perfect complement to Kult Ov Azazel's technical and polished Sananic attack.
