UPON INFLICTION / In Human (Arctic Music Group) Finally some killer death metal I can sing my fangs into. The singer is Kyle who also sang in Hateplow and Malevolent Creation. This is 100% straight forward death metal with some crushing riffs, pure death metal vocals and plenty of fast parts to have your neck snapping in 2. The band also do a awesome cover of "Mutilation" by Death as well. The production is right on the money and any fan of 90's Florida death metal, one being myself, will worship this. Info:
