

KULT OF AZAZEL/The World, The Flesh And The Devil (Arctic Music Group) More heart pounding back metal from these guys. This band once again delivers the goods. This band just rips, crushes and slays the tunes down that would make Satan himself proud. Pure black metal vocals and the tunes just rip, slice and burn through your veins. This is black metal the way it should be and after all this time the band can still crank it out with passion, emotion and fury. Info:
