

CODE BLACK/Penetration (Arctic Music Group) This is the perfect blend of hardcore and metal. The music is more metal and the vocals are more hardcore. They are clean, but sung in an aggressive way at times and fit the music. The music is also a mix of metal and hardcore and also has some melody to it as well. Sort of like Leeway at times. The band just write this riffs that make my head move and the production is perfect. A very cool band. Info:
