

AMP and LOUD FAST RULES!

THE BLACK HALOS "We Are Not Alone"

Another fantastic release from Canada's answer to the Dead Boys. The Black Halos have to punk rock & roll sound down to an art form here on their fourth LP. Singer Billy Hopeless channels the spirits of Stiv Bators & Jeffery Lee Pierce while the band slams along with their Social Distortion meets the Humpers brand of pure rock & roll on all 12 tunes here. Hard, gritty, dirty & mean, just as it should be. One of the top releases of 2008. ([Www.acetate.com](http://www.acetate.com)) JRM
