

AMP and LOUD FAST RULES!

PRIMA DONNA "After Hours"

Hell yeah! Prima Donna wear their power pop & glam influences proudly here on this debut release! Sleazy sax, piano, handclaps, catchy choruses & great hooks make this one hell of a fun record to listen to! Taking their cues from Ziggy era Bowie, Mott the Hoople, the Joneses, the Dolls, the Damned & X-Ray Spex while putting their own spin on things, this is pure rock & roll at it's best. In a better world, songs like "Soul Stripper" & "Everything's Wrong" would be blasting from radios all across the nation. Pick this up & inject yourself with a healthy dose of rock & roll, no chaser required. (Www.acetate.com)
