By Chris Forbes

WARRIOR SOUL/Destroy The War Machine (Acetate Records) I have enjoyed this band's past releases and this one is no exception. I love Kory Clarke's vocal style and he just tears it up on this and the awesome guitar sound I love is also present on this as well. The band just have this wicked sound that I love and the songs on this are heavy, catchy and just plain kicked my ass.

The production brings everything out and this picks up right where the band last left off and is one hell of a release. Welcome back guys.
