RAIN/Dad Is Dead (Aural Music) This is some really solid rock n roll with a metal edge to it. Strong singing and great riffs made this a head banging delight. This is pure 80's heavy metal with no groove or new sounds and thank god for that. This is stuff like Raven, Heaven, etc put out way back when and the tunes will have you raising those metal fists high in the air and the singer has the perfect voice for stuff like this. A pure metal delight I assure you. Info:
