## BUCKETHEAD

FROM THE COOP  
(MVD)

For a man who has spent the better part of his life hiding under a KFC bucket, Buckethead commands a hell of a lot of respect. Through his brief stint with Guns N' Roses, collaborations with the likes of Les Claypool and Bill Laswell, and countless solo recordings, the guitar virtuoso has easily rivalled any of the guitar greats you care to think of, and here he gets his vaults plundered for the very first (and very raw) multi-track recordings dating back to 1988. While the demos of a young Buckethead exploring his abilities with the help of a very dated-sounding drum machine certainly won't be of interest outside of the hardcore fan-base, it's a mildly interesting historical document nonetheless.
