Green on Red

(Brink Film)

Alas, how many killer bands have left behind volumes of great music heard by so few? Count Green on Red in that category and here it thankfully reunites, albeit reluctantly, in tribute to its late drummer. The show is no disappointment as Green on Red runs through its gloriously ragged Americana rock at this theater in Tucson. GoR helped evolve alt.country and members, including Dan Stuart, Chuck Prophet, Chris Cacavas and Jack Waterson, have continued to perform. This DVD is brought to you by the eclectic and forward-thinking Brink collective.
