Fested (A Journey to Fest 7) DVD

Review by Gary Hill

Apparently Fest is an annual festival that takes place in Florida. The key is punk rock and this is a DIY documentary that captures the 2008 edition of the event. It's fun. It's interesting. It's definitely not polished. Of course, given the musical style, that's appropriate. Many bands are featured and it's an interesting introduction for those of us without any experience with Fest.
