## STEMM *Blood Scent*

Catch 22

It didn't take long for **STEMM** to become my favorite new Metal band...just three songs into their latest release, ***Blood Scent***, and I was hooked. Not only is this one of the best produced Metal records I've ever heard, the tunes are just fucking incredible! Brutal, Honest, and Performed To Extreme Perfection!!! I have no idea why the world hasn't been introduced to this band earlier, but I imagine it's par for the course that the music industry only signs and promotes bands that they KNOW they can sell millions of albums on because it sounds like everything else. Well, **STEMM**, thank Satan, doesn't sound like the glut of Metal bands that say they're keeping it real with new riffage and tune structure. They literally sound different because they mix the best elements of Metal with some Active/Agro Rock stylings that might see songs like "House Of Cards" and "Awake" finding some radio play. I've never heard a mixture of music so perfectly screaming for heavy rock airplay...it's as if **PANTERA** and a tinge of the melodic hook from **CROSSFADE** broke one off in the ass of **HATEBREED**...without even offering to pick up the dinner check!!!

You'd be hard-pressed to find a single song on this record that doesn't just kick your ass with a sledge-hammer. Again, it's back to the impeccable production provided by **Mike Hatalak**. Everything sounds brilliant; the guitar solos reverberate through your ears for hours after you've finished listening, the kick drums attack your chest and literally push air out of your lungs no matter what kind of speakers you're listening through, and singer/screamer **Joe Cafarella** is a virtual shit storm of piss-n-venom!!! This is easily the best produced Metal album since the days of **PANTERA's Far Beyond Driven** and any **KILLSWITCH ENGAGE** album ever released...nothing can touch this one!

Head over to **PURCHASE NOW** and grab a copy before the world catches on and you get left behind!!! I'm warning you, this one is not to be overlooked! Very, Very Highly Recommended!!!
