

SBB/The Rock (Metal Mind Productions) I reviewed and earlier release from this band and I didn't like it at all, but this was a much better job in my opinion. The music is more relaxed and not all over the place. The vocals are sung in another language so that made them kind of tough to get into, but he dopes have a nice set of pipes. The music is prog metal that might go over some peoples heads and it did at times with me, but overall this is much better than the other piece of music I got from this band and if your into prog metal I would say give this band a listen.
