JAH WOBBLE & KEITH LEVENE - Yin & Yang: This album is worth getting just to know that a bit of musical history has taken place with both Jah Wobble and Keith Levene teaming up since their Public Image Ltd days. What you get for your money is a decent album filled with many influences including Dub and Punk. To be honest when I first heard about this album I thought they'd be going through the motions to top up their bank accounts. How wrong I was! There's certainly no fillers on here so you really have to give this album a blast. Tracks that did for me include the title track 'Yin And Yang', 'Jags & Staffs', 'Within You Without You' and 'Back On The Block'. If you're looking for something with a lot of originality then I highly recommend this release. 8/10
